Hoofland's German Bitters ! A Bitters without Alcohol or Spririts of any kind, is different from all others. It is composed of the pure juices, or Vital Principle of Roots, Herbs, and Barks, (or, as medicinally termed, Extracts,) the worthless or inert postions of the ingredients not being used. Therefore in one bottle of this Bitters there is contained as much medicinal virtue as will be found in several gallons of ordinary mixture. The Roots; &c., used in this Bitters are grown in Germany, their vital principles extracted in the country by a scientific Chemist and forwarded to the manufactory in the city, where they are all compounded and bottled. Containing no spirituous ingredients this Bitters is free from the objections arged against all others ; no desire for stanfalants can be indue; ed from their use, they cannot make dran-kards, and cannot under any circumstances have any but a beneficial effect.

Hoofland's German Tonic. Was compounded for these not inclined to extreme pitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the tonic properties of the Bitters. Each bottle of the to-nic contains one bottle of the Bitters, combined with pure Sunta Croz Rum, and flavored in such a manner that the extreme bitterness is overcome, forming a prepara-tion highly agreeable and pleasant to the thoughte, and containing the medicinal virturs of the Bitters. The price of the Tou-ie is \$1.50 per bottle, which many persons think too high. They must take into cou-sideration that the stimulant used is guar-anteed to be of a pure quality. A poor ar-ticle could be furnished at a chapper price. but is it not better to pay a little more to have a good article? A medicinal preparation should contain none but the best ingredients; and they who expect to obtain a cheap sampound and be benefitted by it; will most certainly be cheated.
